FISCAL ANALYSIS

Assumptions:

- SB 545 revises local government laws in which a local government is allowed to accept a waiver for certain residential building code requirements. SB 545 provides for a \$10 waiver fee to be paid to the Department of Labor & Industry (DLI) when a contractor utilizes the waiver provided for in this legislation. DLI is unable to estimate the number of waivers that would be requested in any given year and therefore is unable to estimate the revenue impact this legislation will have on the agency. However, the agency does not anticipate a large volume of wavier requests and any revenue received is likely to be minimal.
