15 definitions apply:

16 (1) "Board" means the board of examiners provided for in 2-15-1007.

17 (2) "Cost" includes the expenses related to planning, design, construction, and installation of
18 energy conservation improvements and any administrative expenses of the ~~department~~ division incurred in the
19 performance of its duties under the energy conservation program.

20 (3) ~~"Department"~~ "Division" means the ~~department of environmental quality architecture and~~
21 engineering division of the department of administration provided for in ~~2-15-3504~~ 17-7-201.

22 (4) "Energy conservation program" means a program for the financing, acquisition, construction,
23 and installation of alternative energy systems, as defined in 15-32-102, or equipment, systems, and
24 improvements in state-owned buildings, structures, and facilities that save energy or water.

25 (5) "Energy conservation program bonds" includes all series of bonds issued to finance any portion
26 of the energy conservation program.

27 (6) "Energy cost savings" means the savings in utility costs to a state agency as a result of an
28 energy conservation program.

(7) "Participating state agency" means, for a state-owned building, structure, or facility, the state agency that pays for the utilities for that building.

(8) "State agency" means:

- (a) each executive, legislative, or judicial branch department, office, or agency;
- (b) the university system; and
- (c) a community college district."

Section 2. Section 90-4-605, MCA, is amended to read:

"90-4-605. Preparation of energy conservation program. (1) The ~~department~~division shall identify buildings that have a potential for energy savings, based on age, energy use, function, and condition of the building. ~~Upon~~On request of the ~~department~~division, a state agency shall provide the ~~department~~division with information necessary to allow the ~~department~~division to comply with this requirement.

(2) Based on the criteria in subsection (1) and on the feasibility of leveraging other funds, such as federal and utility energy conservation program money, the ~~department~~division shall select certain facilities for indepth energy analyses to identify the technical and financial feasibility of making energy conservation improvements to the facilities.

(3) (a) ~~Upon~~On completion of the energy analyses, the ~~department~~division shall identify estimated costs and savings to the state based on these analyses.

(b) The ~~department~~division shall ~~notify the department of administration of~~identify each project for which:

(i) for projects to be funded with bond proceeds, the estimated savings are determined to be greater than the bond payment costs; and

(ii) for projects to be funded from the general fund or the energy conservation capital projects account, the estimated savings are determined to be greater than the cost of the project plus annual interest payments of 3% of the unpaid balance of the cost of the project.

(c) ~~Upon receipt of the notification, the department of administration~~ The division shall implement a design and construction project using bond proceeds or funds from the general fund or the energy conservation capital projects account established in 90-4-617 for the costs of the project.

1 (4) The ~~department~~ division shall compile a report that must include the following:

2 (a) a listing of contacts between the ~~department~~ division and other state agencies;

3 (b) a summary of the ~~department's~~ division's review of agency requests and a selection of projects
4 for indepth analysis;

5 (c) a summary of the energy analyses conducted by the ~~department~~ division, including the
6 estimated cost of each proposed project and the estimated energy cost savings of each proposed project; and

7 (d) a listing of additional projects under consideration, for which energy analyses have not been
8 conducted.

9 (5) The ~~department~~ division shall submit the report required by subsection (4) to the governor
10 before September 1 of each even-numbered year."

11
12 **Section 3.** Section 90-4-607, MCA, is amended to read:

13 **"90-4-607. Duties of department division.** In addition to the duties set forth in 90-4-605, the
14 ~~department~~ division is authorized to:

15 (1) analyze state utility data to identify high-potential energy conservation projects;

16 (2) perform comprehensive energy analyses on state-owned buildings, structures, and facilities,
17 contracting with private engineers when necessary;

18 ~~(3) transfer funds and authority to the department of administration to:~~

19 (3) procure design and construction of cost-effective energy improvements; and

20 (4) transfer funds and authority to other agencies to procure, design, and construct cost-effective
21 energy improvements; and

22 (5) train facility maintenance staff in energy saving techniques and maintenance of energy
23 improvements and monitor energy conservation projects to ensure that cost savings are realized and are
24 adequate to cover the debt service if bonds have been issued to fund the improvements."

25
26 **Section 4.** Section 90-4-616, MCA, is amended to read:

27 **"90-4-616. Transfer of energy savings from projects.** (1) In preparing the executive budget each
28 biennium, for each state agency participating in the energy conservation program by using appropriations from

1 the general fund or the energy conservation capital projects account created in 90-4-617, the governor shall
2 include an estimate of the energy cost savings expected for that agency in each year of the biennium.

3 (2) Each session, the legislature shall review the governor's submission pursuant to 90-4-606 and
4 subsection (1) of this section and, unless the legislature disapproves, shall include in the general appropriations
5 act authority for each participating state agency, subject to [section 5], to transfer funds in an amount equal to
6 the agency's estimated energy cost savings to the energy conservation repayment account established in 90-4-
7 615. Except as provided in [section 5], ~~T hese these~~ transfers must continue until the cost of the project,
8 including energy analysis, acquisition and installation costs of energy saving equipment or systems, and the
9 cost of the construction of improvements in state buildings, facilities, or structures, plus annual interest
10 payments of 3% of the unpaid balance of the cost of the project, has been paid into the energy conservation
11 repayment account.

12 (3) The current level utility appropriations of state agencies participating in the energy conservation
13 program must be reduced by the sum of the amounts approved to be transferred pursuant to subsection (2).

14 (4) ~~Upon-On~~ request of the ~~department~~ division, each participating state agency shall transfer the
15 amounts approved pursuant to subsection (2)."
