11 **"20-10-141. Schedule of maximum reimbursement by mileage rates.** (1) (a) The mileage rates in  
12 subsection (2) for school transportation constitute the maximum reimbursement to districts for school  
13 transportation from state and county sources of transportation revenue under the provisions of 20-10-145 and  
14 20-10-146. These rates may not limit the amount that a district may budget in its transportation fund budget in  
15 order to provide for the estimated and necessary cost of school transportation during the ensuing school fiscal  
16 year.

17 (b) All bus miles traveled on bus routes approved by the county transportation committee are  
18 reimbursable.

19 (c) Nonbus mileage is reimbursable for a vehicle driven by a bus driver to and from an overnight  
20 location of a school bus when the location is more than 10 miles from the school.

21 (d) A district may approve additional bus or nonbus miles within its own district or approved service  
22 area but may not claim reimbursement for the mileage.

23 (e) Any vehicle, the operation of which is reimbursed for bus mileage under the rate provisions of  
24 this schedule, must be a school bus, as defined by this title, driven by a qualified driver on a bus route approved  
25 by the county transportation committee and the superintendent of public instruction.

26 (2) (a) The rate for each bus mile traveled must be determined in accordance with the following  
27 schedule:

8 mile.
- 9           (3)     The rated capacity is the number of passenger seating positions of a school bus as determined  
10 under the policy adopted by the board of public education. If modification of a school bus to accommodate  
11 pupils with disabilities reduces the rated capacity of the bus, the reimbursement to a district for pupil  
12 transportation is based on the rated capacity of the bus prior to modification.
