16
17 NEW SECTION. **Section 2. Purpose.** The legislature finds and declares that:

18 (1) Montana is endowed with significant and diverse energy resources. The development of
19 Montana's energy resources is essential to a healthy state economy.

20 (2) Montana's energy resources provide a tremendous opportunity to diversify the state's economy
21 and to stabilize and increase revenue to the state;

22 (3) Energy generation and electric transmission constraints impede the development of the state's
23 energy resources;

24 (4) an essential function of government and its public purpose is to assist with the removal of
25 energy generation and electric transmission impediments to facilitate the development of Montana's energy
26 resources;

27 (5) development of Montana's energy resources promotes the public interest by increasing
28 employment, stimulating economic activity, augmenting sources of tax revenue, fostering economic stability,

1 and improving the state's economy; and

2 (6) it is in the public interest that the energy authority has the ability to facilitate the planning,
3 development, economic analysis, and coordination of energy generation and electric transmission.

7 and livelihood, the following categories of energy consumption:

8 (i) residential;

9 (ii) agricultural; and

10 (iii) commercial and industrial enterprise;

11 (c) choose two members with experience in electric transmission, distribution, and energy
