- 5 token from the current available supply.
- 6 (2) "Blockchain" means data that is:
- 7 (a) shared across a peer-to-peer network to create a ledger of verified transactions or information
- 8 among network participants linked together using cryptography to maintain the integrity of the ledger and to
- 9 execute other functions; and
- 10 (b) distributed among network participants in an automated fashion to concurrently update network
- 11 participants on the state of the ledger and any other functions.
- 12 (3) "Blockchain protocol" means any executable software deployed to a blockchain, typically
- 13 referred to as smart contracts, including an additional standardized set of rules that uses a previously existing
- 14 blockchain as a base, which facilitates the transfer of data and electronic records and allows that data to be
- 15 broadcast to nodes. The executable software is governed by a set of predefined rules that execute
- 16 autonomously without human intervention. The rules may be altered by a predetermined mechanism.
- 17 (4) (a) "Central bank digital currency" means a digital currency, a digital medium of exchange, or a
- 18 digital monetary unit of account issued by the United States federal reserve system or a federal agency that is
- 19 made directly available to institutions or consumers by the entities, or which is processed or validated directly
- 20 by the entities.
- 21 (b) The term does not include a digital asset backed by legal tender or government treasuries and
- 22 issued by a private entity.
- 23 (5) "Decentralized network" means, with respect to a central bank digital currency network to which
- 24 a network token relates, a network:
- 25 (a) where no person:

- 27 understanding, relationship, or otherwise, to control or materially alter the functionality or operation of the
- 28 network; or

(ii) has the unilateral authority to restrict or prohibit a person who is not a digital asset issuer, related person, or an affiliated person from:

(A) using, earning, or transmitting a digital asset;

(B) deploying software that uses or integrates with the network;

(C) participating in a decentralized governance system with respect to the network; or

(D) operating a node, validator, or other form of computational infrastructure with respect to the network; and

(b) where no network token issuer or affiliated person beneficially owned, in the aggregate, 20% or more of the total amount of units of the network token that:

(i) may be created, issued, or distributed in the network; or

(ii) were freely transferrable or otherwise used or available to be used for the purposes of the network.

(6) (a) "Digital asset exchange" means a trading platform that offers or seeks to offer a market in at least three digital assets.

(b) The term does not include a company organized under the laws of this state that sells network tokens exclusively.

1 (a) the transmission and storage of value on the network;

2 (b) the participation in services provided by an application running on the network; or

3 (c) the participation in the decentralized governance system of the network.

7 and allows an individual to secure and transfer digital assets. The term also includes a physical device under
8 which the owner of digital assets retains independent control over the digital assets.

9 (14) (a) "Network token" means a digital asset as defined in 70-1-108 that is used for facilitating,
10 coordinating, or enabling access to decentralized computing resources, consumer internet services, or internet
11 infrastructure services via blockchain, including permanent or temporal data storage, computation, wireless
12 access, data capture, audio or visual media hosting, audio or visual media streaming, and network bandwidth.

21 network. Each smart contract consists of code specifying predetermined conditions that, when met, trigger
22 outcomes.

27 limited to the operation of nodes and the associated infrastructure necessary to facilitate participation in

5 10-201 through 30-10-207 and 30-10-211 do not apply to the following transactions:

9 30-10-201 if:

20 registered broker-dealers that it has been entered and give the reasons for the order and shall notify them that
21 within 15 days of the receipt of a written request, the matter will be set for hearing. If a hearing is not requested
22 and is not ordered by the commissioner, the order remains in effect until it is modified or vacated by the
23 commissioner. If a hearing is requested or ordered, the commissioner, after notice of and opportunity for
24 hearing to all interested persons, may modify or vacate the order or extend it until final determination. An order

28 could not have known of the order.

1 (3) a nonissuer transaction effected by or through a registered broker-dealer pursuant to an

15 (8) (a) a transaction pursuant to an offer made in this state directed by the offeror to not more than
16 10 persons, other than those designated in subsection (7), during any period of 12 consecutive months, if:

17 (i) the seller reasonably believes that all the buyers are purchasing for investment; and

18 (ii) a commission or other remuneration is not paid or given directly or indirectly for soliciting a
19 prospective buyer. However, a commission may be paid to a registered broker-dealer if the securities involved
20 are registered with the United States securities and exchange commission under the federal Securities Act of
21 1933, as amended.

13 1933, as amended; and

14 (iv) the offeror applies for and obtains the written approval of the commissioner prior to making any
15 offers in addition to the offers made pursuant to subsection (8)(a) and pays a filing fee that must accompany the
16 application for approval. The commissioner may deny the application.

- 1 (a) a commission or other remuneration, other than a standby commission, is not paid or given
2 directly or indirectly for soliciting any security holder in this state; or
- 3 (b) the issuer first files a notice specifying the terms of the offer and the commissioner does not by
4 order disallow either subsection (10)(a) or the notice specifying the terms of the offer;
- 5 (11) an offer, but not a sale, of a security for which registration statements have been filed under
6 both parts 1 through 3 of this chapter and the Securities Act of 1933 if a stop, refusal, denial, suspension, or

- 28 (b) requires, and under which the purchaser receives within 7 calendar days after payment in good

1 funds of any portion of the purchase price, physical delivery of the quantity of the precious metals purchased.

2 For the purposes of this subsection, physical delivery is considered to have occurred if, within the 7-day period,
3 the quantity of precious metals, whether in specifically segregated or fungible bulk, purchased by the payment
4 is delivered into the possession of a depository, other than the seller, that:
