

1 HOUSE BILL NO. 270

2 INTRODUCED BY K. ZOLNIKOV, W. GALT

3

4 A BILL FOR AN ACT ENTITLED: "AN ACT REVISING REMEDY REQUIREMENTS OF THE MONTANA
5 ENVIRONMENTAL POLICY ACT RELATED TO THE ENVIRONMENTAL REVIEW PROCESS; AMENDING
6 SECTIONS 75-1-102, 75-1-201, AND 75-1-208, MCA; PROVIDING AN IMMEDIATE EFFECTIVE DATE;
7 PROVIDING AN APPLICABILITY DATE."

8

9 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF MONTANA:

10

11 **Section 1.** Section 75-1-102, MCA, is amended to read:

12 **"75-1-102. Intent -- purpose.** (1) The legislature, mindful of its constitutional obligations under Article
13 II, section 3, and Article IX of the Montana constitution, has enacted the Montana Environmental Policy Act. The
14 Montana Environmental Policy Act is procedural, and it is the legislature's intent that the requirements of parts 1
15 through 3 of this chapter provide for the adequate review of state actions in order to ensure that:

16 (a) environmental attributes are fully considered by the legislature in enacting laws to fulfill
17 constitutional obligations; and

18 (b) the public is informed of the anticipated impacts in Montana of potential state actions.

19 (2) The purpose of parts 1 through 3 of this chapter is to declare a state policy that will encourage
20 productive and enjoyable harmony between humans and their environment, to protect the right to use and enjoy
21 private property free of undue government regulation, to promote efforts that will prevent, mitigate, or eliminate
22 damage to the environment and biosphere and stimulate the health and welfare of humans, to enrich the
23 understanding of the ecological systems and natural resources important to the state, and to establish an
24 environmental quality council.

25 (3) (a) The purpose of requiring an environmental assessment and an environmental impact
26 statement under part 2 of this chapter is to assist the legislature in determining whether laws are adequate to
27 address impacts to Montana's environment and to inform the public and public officials of potential impacts
28 resulting from decisions made by state agencies.

severable from the invalid part remain in effect. If a part of [this act] is invalid in one or more of its applications, the part remains in effect in all valid applications that are severable from the invalid applications.

NEW SECTION. **Section 5. Effective date.** [This act] is effective on passage and approval.

COORDINATION SECTION. **Section 6. Coordination instruction.** Except as provided in [section 8], if both Senate Bill No. 221 and [this act] are passed and approved and if both contain a section that amends 75-1-201, then the sections amending 75-1-201 are void and 75-1-201 must be amended as follows:

"75-1-201. General directions -- environmental impact statements. (1) The legislature authorizes and directs that, to the fullest extent possible:

(a) the policies, regulations, and laws of the state must be interpreted and administered in accordance with the policies set forth in parts 1 through 3;

(b) under this part, all agencies of the state, except the legislature and except as provided in ~~subsections (2) and (3)~~ subsection (3), shall:

(i) use a systematic, interdisciplinary approach that will ensure:

(A) the integrated use of the natural and social sciences and the environmental design arts in planning and in decisionmaking for a state-sponsored project that may have an impact on ~~the Montana human~~ Montana's environment by projects in Montana; and

(B) that in any environmental review that is not subject to subsection (1)(b)(iv), when an agency considers alternatives, the alternative analysis will be in compliance with the provisions of subsections (1)(b)(iv)(C)(I) and (1)(b)(iv)(C)(II) and, if requested by the project sponsor or if determined by the agency to be necessary, subsection (1)(b)(iv)(C)(III);

(ii) identify and develop methods and procedures that will ensure that presently unquantified environmental amenities and values may be given appropriate consideration in decisionmaking for state-sponsored projects, along with economic and technical considerations;

(iii) identify and develop methods and procedures that will ensure that state government actions that may impact ~~the human environment in Montana~~ Montana's environment are evaluated for regulatory

restrictions on private property, as provided in subsection (1)(b)(iv)(D);

(iv) include in each recommendation or report on proposals for projects, programs, and other major actions of state government significantly affecting the quality of ~~the human environment in Montana~~ Montana's environment a detailed statement on:

(A) the proximate environmental ~~impact~~ impacts of the proposed action;

(B) any proximate adverse effects on Montana's environment that cannot be avoided if the ~~proposal~~ proposed action is implemented;

(C) alternatives to the proposed action. An analysis of any alternative included in the environmental review must comply with the following criteria:

(I) any alternative proposed must be reasonable, in that the alternative must be achievable under current technology and the alternative must be economically feasible as determined solely by the economic viability for similar projects having similar conditions and physical locations and determined without regard to the economic strength of the specific project sponsor;

(II) the agency proposing the alternative shall consult with the project sponsor regarding any proposed alternative, and the agency shall give due weight and consideration to the project sponsor's comments regarding the proposed alternative;

(III) the agency shall complete a meaningful no-action alternative analysis. The no-action alternative analysis must include the projected beneficial and adverse environmental, social, and economic impact of the project's noncompletion.

(D) any regulatory impacts on private property rights, including whether alternatives that reduce, minimize, or eliminate the regulation of private property rights have been analyzed. The analysis in this subsection (1)(b)(iv)(D) need not be prepared if the proposed action does not involve the regulation of private property.

(E) the relationship between local short-term uses of ~~the Montana human~~ Montana's environment and the maintenance and enhancement of long-term productivity;

(F) any irreversible and irretrievable commitments of resources that would be involved in the proposed action if it is implemented;

(G) the customer fiscal impact analysis, if required by 69-2-216; and

(H) the details of the beneficial aspects of the proposed project, both short-term and long-term, and the economic advantages and disadvantages of the proposal;

(v) in accordance with the criteria set forth in subsection (1)(b)(iv)(C), study, develop, and describe appropriate alternatives to recommend courses of action in any proposal that involves unresolved conflicts concerning alternative uses of available resources. If the alternatives analysis is conducted for a project that is not a state-sponsored project and alternatives are recommended, the project sponsor may volunteer to implement the alternative. Neither the alternatives analysis nor the resulting recommendations bind the project sponsor to take a recommended course of action, but the project sponsor may agree pursuant to subsection (4)(b) to a specific course of action.

(vi) recognize the potential long-range character of environmental impacts in Montana and, when consistent with the policies of the state, lend appropriate support to initiatives, resolutions, and programs designed to maximize cooperation in anticipating and preventing a decline in the quality of Montana's environment;

(vii) make available to counties, municipalities, institutions, and individuals advice and information useful in restoring, maintaining, and enhancing the quality of Montana's environment;

(viii) initiate and use ecological information in the planning and development of resource-oriented projects; and

(ix) assist the legislature and the environmental quality council established by 5-16-101;

(c) prior to making any detailed statement as provided in subsection (1)(b)(iv), the responsible state official shall consult with and obtain the comments of any state agency that has jurisdiction by law or special expertise with respect to any environmental impact involved in Montana and with any Montana local government, as defined in 7-12-1103, that may be directly impacted by the project. The responsible state official shall also consult with and obtain comments from any state agency in Montana with respect to any regulation of private property involved. Copies of the statement and the comments and views of the appropriate state, federal, and local agencies that are authorized to develop and enforce environmental standards must be made available to the governor, the environmental quality council, and the public and must accompany the proposal through the existing agency review processes.

(d) a transfer of an ownership interest in a lease, permit, license, certificate, or other entitlement for

1 use or permission to act by an agency, either singly or in combination with other state agencies, does not
2 trigger review under subsection (1)(b)(iv) if there is not a material change in terms or conditions of the
3 entitlement or unless otherwise provided by law.

4 (2) (a) ~~Except as provided in subsection (2)(b), an~~ An environmental review conducted pursuant to
5 subsection (1) may ~~not include an evaluation of greenhouse gas emissions and corresponding impacts to the~~
6 ~~climate in the state or beyond the state's borders~~ a greenhouse gas assessment subject to [section 1 of Senate
7 Bill No. 221]. The department of environmental quality shall develop a guidance document for use by state
8 agencies to determine when a greenhouse gas assessment may be necessary. The guidance must include
9 direction on methodologies for completing a greenhouse gas assessment. Prior to finalizing this guidance, the
10 department shall provide public notice of the draft guidance and allow for public comment.

11 (b) An environmental review conducted pursuant to subsection (1) may include an evaluation of
12 the reasonably foreseeable environmental impacts of a proposed action if:

13 (i) ~~conducted jointly by a state agency and a federal agency to the extent the review~~ of the
14 expanded assessment is required by the federal agency; ~~or~~

15 (ii) ~~the United States congress amends the federal Clean Air Act to include carbon dioxide~~
16 ~~emissions as a regulated pollutant.~~

17 (3) The department of public service regulation, in the exercise of its regulatory authority over rates
18 and charges of railroads, motor carriers, and public utilities, is exempt from the provisions of parts 1 through 3.

19 (4) (a) The agency may not withhold, deny, or impose conditions on any permit or other authority
20 to act based on parts 1 through 3 of this chapter.

21 (b) Nothing in this subsection (4) prevents a project sponsor and an agency from mutually
22 developing measures that may, at the request of a project sponsor, be incorporated into a permit or other
23 authority to act.

24 (c) Parts 1 through 3 of this chapter do not confer authority to an agency that is a project sponsor
25 to modify a proposed project or action.

26 (5) (a) (i) A challenge to an agency's environmental review under this part may only be brought
27 against a final agency action decision and may only be brought in district court or in federal court, whichever is
28 appropriate. A challenge may only be brought by a person who submits formal comments on the agency's

environmental review prior to the agency's final decision, and the challenge must be limited to those issues addressed in those comments.

(ii) Any action or proceeding challenging a final agency action alleging failure to comply with or inadequate compliance with a requirement under this part must be brought within 60 days of the action that is the subject of the challenge.

(iii) For an action taken by the board of land commissioners or the department of natural resources and conservation under Title 77, "final agency action" means the date that the board of land commissioners or the department of natural resources and conservation issues a final environmental review document under this part or the date that the board approves the action that is subject to this part, whichever is later.

(b) Any action or proceeding under subsection (5)(a)(ii) must take precedence over other cases or matters in the district court unless otherwise provided by law.

(c) Any judicial action or proceeding brought in district court under subsection (5)(a) involving an equine slaughter or processing facility must comply with 81-9-240 and 81-9-241.

(6) (a) (i) In an action alleging noncompliance or inadequate compliance with a requirement of parts 1 through 3, including a challenge to an agency's decision that an environmental review is not required or a claim that the environmental review is inadequate, the agency shall compile and submit to the court the certified record of its decision at issue. The agency, prior to submitting the certified record to the court, shall assess and collect from the person challenging the decision a fee to pay for actual costs to compile and submit the certified record. Except as provided in subsection (6)(b), the person challenging the decision has the burden of proving the claim by clear and convincing evidence contained in the record.

~~(ii) An action alleging noncompliance or inadequate compliance with a requirement of parts 1 through 3, including a challenge to an agency's decision that an environmental review is not required or a claim that the environmental review is inadequate based in whole or in part upon greenhouse gas emissions and impacts to the climate in Montana or beyond Montana's borders, cannot vacate, void, or delay a lease, permit, license, certificate, authorization, or other entitlement or authority unless the review is required by a federal agency or the United States congress amends the federal Clean Air Act to include carbon dioxide as a regulated pollutant.~~

~~(iii)~~(ii) Except as provided in subsection (6)(b), in a challenge to the agency's decision or the

adequacy of an environmental review, a court may not consider any information, including but not limited to an issue, comment, argument, proposed alternative, analysis, or evidence, that was not first presented to the agency for the agency's consideration prior to the agency's decision or within the time allowed for comments to be submitted.

~~(iv)~~(iii) Except as provided in subsection (6)(b), the court shall confine its review to the record certified by the agency. The court shall affirm the agency's decision or the environmental review unless the court specifically finds that the agency's decision was arbitrary and capricious.

~~(iv)~~(iv) A customer fiscal impact analysis pursuant to 69-2-216 or an allegation that the customer fiscal impact analysis is inadequate may not be used as the basis of an action challenging or seeking review of the agency's decision.

(b) (i) When a party challenging the decision or the adequacy of the environmental review or decision presents information not in the record certified by the agency, the challenging party shall certify under oath in an affidavit that the information is new, material, and significant evidence that was not publicly available before the agency's decision and that is relevant to the decision or the adequacy of the agency's environmental review.

(ii) If upon reviewing the affidavit the court finds that the proffered information is new, material, and significant evidence that was not publicly available before the agency's decision and that is relevant to the decision or to the adequacy of the agency's environmental review, the court shall remand the new evidence to the agency for the agency's consideration and an opportunity to modify its decision or environmental review before the court considers the evidence as a part of the administrative record under review.

(iii) If the court finds that the information in the affidavit does not meet the requirements of subsection (6)(b)(i), the court may not remand the matter to the agency or consider the proffered information in making its decision.

(c) (i) The remedies provided in this section for successful challenges to a decision of the agency or the adequacy of the statement are exclusive.

(ii) If the court finds that noncompliance has occurred with parts 1 through 3 of this chapter, the court may remand the matter to the agency to correct the noncompliance

~~(ii)~~(iii) Notwithstanding the provisions of 27-19-201 and 27-19-314, a court having considered the

1 pleadings of parties and intervenors opposing a request for a temporary restraining order, preliminary
2 injunction, permanent injunction, vacatur, or other equitable relief may not enjoin, void, nullify, revoke, modify,
3 or suspend the issuance or effectiveness of a license or permit or a part of a license or permit issued pursuant
4 to Title 75 or Title 82 unless the court specifically finds that the party requesting the relief is more likely than not
5 to prevail on the merits of its complaint given the uncontroverted facts in the record and applicable law and, in
6 the absence of a temporary restraining order, a preliminary injunction, a permanent injunction, vacatur, or other
7 equitable relief, that the:

8 (A) party requesting the relief will suffer irreparable harm in the absence of the relief;

9 (B) issuance of the relief is in the public interest. In determining whether the grant of the relief is in
10 the public interest, a court:

11 (I) may not consider the legal nature or character of any party; and

12 (II) shall consider the implications of the relief on the local and state economy and make written
13 findings with respect to both.

14 (C) relief is as narrowly tailored as the facts allow to address both the alleged noncompliance and
15 the irreparable harm the party asking for the relief will suffer. In tailoring the relief, the court shall ensure, to the
16 extent possible, that the project or as much of the project as possible can go forward while also providing the
17 relief to which the applicant has been determined to be entitled.

18 (d) The court may issue a temporary restraining order, preliminary injunction, permanent
19 injunction, or other injunctive relief only if the party seeking the relief provides a written undertaking to the court
20 in an amount reasonably calculated by the court as adequate to pay the costs and damages sustained by any
21 party that may be found to have been wrongfully enjoined or restrained by a court through a subsequent judicial
22 decision in the case, including but not limited to lost wages of employees and lost project revenues for 1 year. If
23 the party seeking an injunction or a temporary restraining order objects to the amount of the written undertaking
24 for any reason, including but not limited to its asserted inability to pay, that party shall file an affidavit with the
25 court that states the party's income, assets, and liabilities in order to facilitate the court's consideration of the
26 amount of the written undertaking that is required. The affidavit must be served on the party enjoined. ~~If a~~
27 ~~challenge for noncompliance or inadequate compliance with a requirement of parts 1 through 3 seeks to~~
28 ~~vacate, void, or delay a lease, permit, license, certificate, or other entitlement or authority, the party shall, as an~~

~~initial matter, seek an injunction related to a lease, permit, license, certificate, or other entitlement or authority,~~

~~and an~~ An injunction may only be issued if the challenger:

(i) proves there is a likelihood of succeeding on the merits;

(ii) proves there is a violation of an established law or regulation on which the lease, permit, license, certificate, or other entitlement or authority is based; and

(iii) subject to the demonstration of the inability to pay, posts the appropriate written undertaking.

(e) An individual or entity seeking a lease, permit, license, certificate, or other entitlement or authority to act may intervene in a lawsuit in court challenging a decision or statement by a department or agency of the state as a matter of right if the individual or entity has not been named as a defendant.

(f) Attorney fees or costs may not be awarded to the prevailing party in an action alleging noncompliance or inadequate compliance with a requirement of parts 1 through 3.

(7) For the purposes of judicial review, to the extent that the requirements of this section are inconsistent with the provisions of the National Environmental Policy Act, the requirements of this section apply to an environmental review or any severable portion of an environmental review within the state's jurisdiction that is being prepared by a state agency pursuant to this part in conjunction with a federal agency proceeding pursuant to the National Environmental Policy Act.

(8) The director of the agency responsible for the determination or recommendation shall endorse in writing any determination of significance made under subsection (1)(b)(iv) or any recommendation that a determination of significance be made.

(9) A project sponsor may request a review of the significance determination or recommendation made under subsection (8) by the appropriate board, if any. The appropriate board may, at its discretion, submit an advisory recommendation to the agency regarding the issue. The period of time between the request for a review and completion of a review under this subsection may not be included for the purposes of determining compliance with the time limits established for environmental review in 75-1-208."

COORDINATION SECTION. **Section 7. Coordination instruction.** Except as provided in [section 8], if both House Bill No. 285 and [this act] are passed and approved and if both contain a section that amends 75-

1 1-201, then the sections amending 75-1-201 are void and 75-1-201 must be amended as follows:

2 **"75-1-201. General directions -- environmental impact statements.** (1) The legislature authorizes
3 and directs that, to the fullest extent possible:

4 (a) ~~the policies, regulations, and laws of the state must be interpreted and administered in~~
5 ~~accordance with the policies set forth in parts 1 through 3;~~

6 ~~(b) —~~under this part, all agencies of the state, except the legislature and except as provided in
7 ~~subsections (2) and (3) subsection (2),~~ shall:

8 (i) use a systematic, interdisciplinary approach that ~~will~~ must ensure:

9 (A) the integrated use of the natural and social sciences and the environmental design arts in
10 planning and ~~in decisionmaking for assessing~~ a state-sponsored project that may have an impact on ~~the~~
11 ~~Montana human~~ Montana's environment by projects in Montana; and

12 (B) that in any environmental review that is not subject to subsection ~~(1)(b)(iv)(1)(a)(iv)~~, when an
13 agency considers alternatives, the alternative analysis ~~will~~ must be in compliance with the provisions of
14 subsections ~~(1)(b)(iv)(C)(I) and (1)(b)(iv)(C)(II) (1)(a)(iv)(C)(I) and (1)(a)(iv)(C)(II)~~ and, if requested by the
15 project sponsor or if determined by the agency to be necessary, subsection ~~(1)(b)(iv)(C)(III)(1)(a)(iv)(C)(III)~~;

16 (ii) identify and develop methods and procedures that ~~will~~ ensure that presently unquantified
17 environmental amenities ~~and values~~ may be given appropriate consideration ~~in decisionmaking and~~
18 ~~assessment~~ for state-sponsored projects, ~~along with economic and technical considerations;~~

19 (iii) identify and develop methods and procedures that will ensure that state government actions
20 that may impact ~~the human~~ Montana's environment ~~in Montana~~ are evaluated for regulatory restrictions on
21 private property, as provided in subsection ~~(1)(b)(iv)(D)(1)(a)(iv)(D)~~;

22 (iv) include in each recommendation or report on proposals for projects, programs, and other major
23 actions of state government significantly affecting the quality of ~~the human environment in Montana~~ Montana's
24 environment a detailed statement on:

25 (A) the environmental impact of the proposed action;

26 (B) any adverse effects on Montana's environment that cannot be avoided if the proposal is
27 implemented;

28 (C) alternatives to the proposed action. An analysis of any alternative included in the environmental

review must comply with the following criteria:

(I) any alternative proposed must be reasonable, in that the alternative must be achievable under current technology and the alternative must be economically feasible as determined solely by the economic viability for similar projects having similar conditions and physical locations and determined without regard to the economic strength of the specific project sponsor;

(II) the agency proposing the alternative shall consult with the project sponsor regarding any proposed alternative, and the agency shall give due weight and consideration to the project sponsor's comments regarding the proposed alternative;

(III) the agency shall complete a meaningful no-action alternative analysis. The no-action alternative analysis must include the projected beneficial and adverse environmental, social, and economic impact of the project's noncompletion.

(D) any regulatory impacts on private property rights, including whether alternatives that reduce, minimize, or eliminate the regulation of private property rights have been analyzed. The analysis in this subsection ~~(1)(b)(iv)(D)(1)(a)(iv)(D)~~ need not be prepared if the proposed action does not involve the regulation of private property.

~~(E) — the relationship between local short-term uses of the Montana human environment and the maintenance and enhancement of long-term productivity;~~

~~(F)~~(E) any irreversible and irretrievable commitments of resources that would be involved in the proposed action if it is implemented;

~~(G)~~(F) the customer fiscal impact analysis, if required by 69-2-216; and

~~(H)~~(G) the details of the beneficial aspects of the proposed project, both short-term and long-term, and the economic advantages and disadvantages of the proposal;

(v) in accordance with the criteria set forth in subsection ~~(1)(b)(iv)(C)(1)(a)(iv)(C)~~, study, develop, and describe appropriate alternatives to recommend courses of action in any proposal that involves unresolved conflicts concerning alternative uses of available resources. If the alternatives analysis is conducted for a project that is not a state-sponsored project and alternatives are recommended, the project sponsor may volunteer to implement the alternative. ~~Neither the~~The alternatives analysis ~~nor or~~ the resulting recommendations may not bind the project sponsor to take a recommended course of action, ~~but the project~~

~~sponsor may agree pursuant to subsection (4)(b) to a specific course of action.~~

~~(vi) — recognize the potential long-range character of environmental impacts in Montana and, when consistent with the policies of the state, lend appropriate support to initiatives, resolutions, and programs designed to maximize cooperation in anticipating and preventing a decline in the quality of Montana's environment;~~

~~(vii)(vi)~~ make available to counties, municipalities, institutions, and individuals advice and information useful in restoring, maintaining, and enhancing the quality of Montana's environment;

~~(viii)(vii)~~ initiate and use ecological information in the planning and development of resource-oriented projects; and

~~(ix)(viii)~~ assist the legislature and the environmental quality council established by 5-16-101;

~~(e)(b)~~ prior to making any detailed statement as provided in subsection ~~(1)(b)(iv)(1)(a)(iv)~~, the responsible state official shall consult with and ~~obtain request~~ the comments of any state agency that has jurisdiction by law or special expertise with respect to any environmental impact involved in Montana and with any Montana local government, as defined in 7-12-1103, that may be directly impacted by the project. The responsible state official shall also consult with and ~~obtain request~~ comments from any state agency in Montana with respect to any regulation of private property involved. Copies of the statement and the comments ~~and views~~ of the appropriate state, federal, and local agencies that are authorized to develop and enforce environmental standards must be made available to the governor, the environmental quality council, and the public and must accompany the proposal through the existing agency review processes.

~~(d)(c)~~ a transfer of an ownership interest in a lease, permit, license, certificate, or other entitlement for use or permission to act by an agency, either singly or in combination with other state agencies, does not trigger review under subsection ~~(1)(b)(iv)(1)(a)(iv)~~ if there is not a material change in terms or conditions of the entitlement or unless otherwise provided by law.

~~(2) — (a) Except as provided in subsection (2)(b), an environmental review conducted pursuant to subsection (1) may not include an evaluation of greenhouse gas emissions and corresponding impacts to the climate in the state or beyond the state's borders.~~

~~(b) — An environmental review conducted pursuant to subsection (1) may include an evaluation if:~~

~~(i) — conducted jointly by a state agency and a federal agency to the extent the review is required by~~

1 ~~the federal agency; or~~

2 ~~(ii) — the United States congress amends the federal Clean Air Act to include carbon dioxide~~
3 ~~emissions as a regulated pollutant.~~

4 ~~(3)(2)~~ The department of public service regulation, in the exercise of its regulatory authority over rates
5 and charges of railroads, motor carriers, and public utilities, is exempt from the provisions of parts 1 through 3.

6 ~~(4) — (a) The agency may not withhold, deny, or impose conditions on any permit or other authority~~
7 ~~to act based on parts 1 through 3 of this chapter.~~

8 ~~(b) — Nothing in this subsection (4) prevents a project sponsor and an agency from mutually~~
9 ~~developing measures that may, at the request of a project sponsor, be incorporated into a permit or other~~
10 ~~authority to act.~~

11 ~~(c) — Parts 1 through 3 of this chapter do not confer authority to an agency that is a project sponsor~~
12 ~~to modify a proposed project or action.~~

13 ~~(5)(3)~~ (a) (i) A challenge to an agency's environmental review under this part may only be brought
14 against a ~~final agency action~~ state action approved in a final decision document and may only be brought in
15 district court or in federal court, whichever is appropriate. A challenge may only be brought by a person who
16 submits formal comments on the agency's environmental review prior to the issuance of the agency's final
17 decision document, and the challenge must be limited to those issues ~~addressed~~ raised in those comments.

18 (ii) Any action or proceeding challenging a ~~final agency action~~ state action approved in a final
19 decision document alleging failure to comply with or inadequate compliance with a requirement under this part
20 must be brought within 60 days of the action that is the subject of the challenge.

21 (iii) For an action taken by the board of land commissioners or the department of natural resources
22 and conservation under Title 77, "final agency action" means the date that the board of land commissioners or
23 the department of natural resources and conservation issues a final environmental review document under this
24 part or the date that the board approves the action that is subject to this part, whichever is later.

25 (b) Any action or proceeding under subsection ~~(5)(a)(ii)(3)(a)(ii)~~ must take precedence over other
26 cases or matters in the district court unless otherwise provided by law.

27 (c) Any judicial action or proceeding brought in district court under subsection ~~(5)(a)(3)(a)~~ involving
28 an equine slaughter or processing facility must comply with 81-9-240 and 81-9-241.

~~(6)(4)~~ (a) (i) In an action alleging noncompliance or inadequate compliance with a requirement of parts 1 through 3, including a challenge to an agency's decision that an environmental review is not required or a claim that the environmental review is inadequate, the agency shall compile and submit to the court the certified record of its decision at issue. The agency, prior to submitting the certified record to the court, shall assess and collect from the person challenging the decision a fee to pay for actual costs to compile and submit the certified record. Except as provided in subsection ~~(6)(b)(4)(b)~~, the person challenging the decision has the burden of proving the claim by clear and convincing evidence contained in the record.

~~(ii) — An action alleging noncompliance or inadequate compliance with a requirement of parts 1 through 3, including a challenge to an agency's decision that an environmental review is not required or a claim that the environmental review is inadequate based in whole or in part upon greenhouse gas emissions and impacts to the climate in Montana or beyond Montana's borders, cannot vacate, void, or delay a lease, permit, license, certificate, authorization, or other entitlement or authority unless the review is required by a federal agency or the United States congress amends the federal Clean Air Act to include carbon dioxide as a regulated pollutant.~~

~~(iii)(ii)~~ Except as provided in subsection ~~(6)(b)(4)(b)~~, in a challenge to the agency's decision or the adequacy of an environmental review, a court may not consider any information, including but not limited to an issue, comment, argument, proposed alternative, analysis, or evidence, that was not first presented to the agency for the agency's consideration prior to the agency's decision or within the time allowed for comments to be submitted.

~~(iv)(iii)~~ Except as provided in subsection ~~(6)(b)(4)(b)~~, the court shall confine its review to the record certified by the agency. The court shall affirm the agency's decision or the environmental review unless the court specifically finds that the agency's decision was arbitrary and capricious.

~~(v)(iv)~~ A customer fiscal impact analysis pursuant to 69-2-216 or an allegation that the customer fiscal impact analysis is inadequate may not be used as the basis of an action challenging or seeking review of the agency's decision.

(b) (i) When a party challenging the decision or the adequacy of the environmental review or decision presents information not in the record certified by the agency, the challenging party shall certify under oath in an affidavit that the information is new, material, and significant evidence that was not publicly available

1 before the agency's decision and that is relevant to the decision or the adequacy of the agency's environmental
2 review.

3 (ii) If ~~upon~~on reviewing the affidavit the court finds that the proffered information is new, material,
4 and significant evidence that was not publicly available before the agency's decision and that is relevant to the
5 decision or to the adequacy of the agency's environmental review, the court shall remand the new evidence to
6 the agency for the agency's consideration and an opportunity to modify its decision or environmental review
7 before the court considers the evidence as a part of the administrative record under review.

8 (iii) If the court finds that the information in the affidavit does not meet the requirements of
9 subsection ~~(6)(b)(i)(4)(b)(i)~~, the court may not remand the matter to the agency or consider the proffered
10 information in making its decision.

11 (c) (i) The remedies provided in this section for successful challenges to a decision of the agency
12 or the adequacy of the statement are exclusive.

13 (ii) If the court finds that noncompliance has occurred with parts 1 through 3 of this chapter, the
14 court may remand the matter to the agency to correct the noncompliance.

15 ~~(ii)(iii)~~ Notwithstanding the provisions of 27-19-201 and 27-19-314, a court having considered the
16 pleadings of parties and intervenors opposing a request for a temporary restraining order, preliminary
17 injunction, permanent injunction, vacatur, or other equitable relief may not enjoin, void, nullify, revoke, modify,
18 or suspend the issuance or effectiveness of a license or permit or a part of a license or permit issued pursuant
19 to Title 75 or Title 82 unless the court specifically finds that the party requesting the relief is more likely than not
20 to prevail on the merits of its complaint given the uncontroverted facts in the record and applicable law and, in
21 the absence of a temporary restraining order, a preliminary injunction, a permanent injunction, vacatur, or other
22 equitable relief, that the:

23 (A) party requesting the relief will suffer irreparable harm in the absence of the relief;

24 (B) issuance of the relief is in the public interest. In determining whether the grant of the relief is in
25 the public interest, a court:

26 (I) may not consider the legal nature or character of any party; and

27 (II) shall consider the implications of the relief on the local and state economy and make written
28 findings with respect to both.

(C) relief is as narrowly tailored as the facts allow to address both the alleged noncompliance and the irreparable harm the party asking for the relief will suffer. In tailoring the relief, the court shall ensure, to the extent possible, that the project or as much of the project as possible can go forward while also providing the relief to which the applicant has been determined to be entitled.

(d) The court may issue a temporary restraining order, preliminary injunction, permanent injunction, or other injunctive relief only if the party seeking the relief provides a written undertaking to the court in an amount reasonably calculated by the court as adequate to pay the costs and damages sustained by any party that may be found to have been wrongfully enjoined or restrained by a court through a subsequent judicial decision in the case, including but not limited to lost wages of employees and lost project revenues for 1 year. If the party seeking an injunction or a temporary restraining order objects to the amount of the written undertaking for any reason, including but not limited to its asserted inability to pay, that party shall file an affidavit with the court that states the party's income, assets, and liabilities in order to facilitate the court's consideration of the amount of the written undertaking that is required. The affidavit must be served on the party enjoined. ~~If a challenge for noncompliance or inadequate compliance with a requirement of parts 1 through 3 seeks to vacate, void, or delay a lease, permit, license, certificate, or other entitlement or authority, the party shall, as an initial matter, seek an injunction related to a lease, permit, license, certificate, or other entitlement or authority, and an~~ An injunction may only be issued if the challenger:

(i) proves there is a likelihood of succeeding on the merits;

(ii) proves there is a violation of an established law or regulation on which the lease, permit, license, certificate, or other entitlement or authority is based; and

(iii) subject to the demonstration of the inability to pay, posts the appropriate written undertaking.

(e) An individual or entity seeking a lease, permit, license, certificate, or other entitlement or authority to act may intervene in a lawsuit in court challenging a decision or statement by a department or agency of the state as a matter of right if the individual or entity has not been named as a defendant.

(f) Attorney fees or costs may not be awarded to the prevailing party in an action alleging noncompliance or inadequate compliance with a requirement of parts 1 through 3.

~~(7)(5)~~ For the purposes of judicial review, to the extent that the requirements of this section are inconsistent with the provisions of the National Environmental Policy Act, the requirements of this section apply

to an environmental review or any severable portion of an environmental review within the state's jurisdiction that is being prepared by a state agency pursuant to this part in conjunction with a federal agency proceeding pursuant to the National Environmental Policy Act.

~~(8)(6)~~ The director of the agency responsible for the determination or recommendation shall endorse in writing any determination of significance made under subsection ~~(1)(b)(iv)(1)(a)(iv)~~ or any recommendation that a determination of significance be made.

~~(9)(7)~~ A project sponsor may request a review of the significance determination or recommendation made under subsection ~~(8)(6)~~ by the appropriate board, if any. The appropriate board may, at its discretion, submit an advisory recommendation to the agency regarding the issue. The period of time between the request for a review and completion of a review under this subsection may not be included for the purposes of determining compliance with the time limits established for environmental review in 75-1-208."

COORDINATION SECTION. Section 8. Coordination instruction. If House Bill No. 285, Senate Bill No. 221, and [this act] are all passed and approved and if all three contain a section that amends 75-1-201, then [sections 6 and 7 of this act] and [section 12 of House Bill No. 285] are void, the sections amending 75-1-201 are void, and 75-1-201 must be amended as follows:

"75-1-201. General directions -- environmental impact statements. (1) The legislature authorizes and directs that, to the fullest extent possible:

(a) ~~the policies, regulations, and laws of the state must be interpreted and administered in accordance with the policies set forth in parts 1 through 3;~~

~~(b)~~ — under this part, all agencies of the state, except the legislature and except as provided in ~~subsections (2) and (3)~~ subsection (3), shall:

(i) use a systematic, interdisciplinary approach that will ensure:

(A) the integrated use of the natural and social sciences and the environmental design arts in planning and ~~in decisionmaking for assessing~~ a state-sponsored project that may have an impact on ~~the Montana human~~ Montana's environment by projects in Montana; and

(B) that in any environmental review that is not subject to subsection ~~(1)(b)(iv)(1)(a)(iv)~~, when an

1 agency considers alternatives, the alternative analysis ~~will~~must be in compliance with the provisions of
2 subsections ~~(1)(b)(iv)(C)(I) and (1)(b)(iv)(C)(II)-(1)(a)(iv)(C)(I) and (1)(a)(iv)(C)(II)~~ and, if requested by the
3 project sponsor or if determined by the agency to be necessary, subsection ~~(1)(b)(iv)(C)(III)-(1)(a)(iv)(C)(III)~~;
4 (ii) identify and develop methods and procedures that ~~will~~ ensure that presently unquantified
5 environmental amenities ~~and values~~ may be given appropriate consideration ~~in decisionmaking and~~
6 assessment for state-sponsored projects, ~~along with economic and technical considerations~~;
7 (iii) identify and develop methods and procedures that ~~will~~ ensure that state government actions
8 that may impact ~~the human Montana's~~ environment ~~in Montana~~ are evaluated for regulatory restrictions on
9 private property, as provided in subsection ~~(1)(b)(iv)(D)-(1)(a)(iv)(D)~~;
10 (iv) include in each recommendation or report on proposals for projects, programs, and other major
11 actions of state government significantly affecting the quality of ~~the human environment in Montana~~ Montana's
12 environment a detailed statement on:
13 (A) the proximate environmental ~~impact impacts~~ of the proposed action;
14 (B) any proximate adverse effects on Montana's environment that cannot be avoided if the
15 ~~proposal~~proposed action is implemented;
16 (C) alternatives to the proposed action. An analysis of any alternative included in the environmental
17 review must comply with the following criteria:
18 (I) any alternative proposed must be reasonable, in that the alternative must be achievable under
19 current technology and the alternative must be economically feasible as determined solely by the economic
20 viability for similar projects having similar conditions and physical locations and determined without regard to
21 the economic strength of the specific project sponsor;
22 (II) the agency proposing the alternative shall consult with the project sponsor regarding any
23 proposed alternative, and the agency shall give due weight and consideration to the project sponsor's
24 comments regarding the proposed alternative;
25 (III) the agency shall complete a meaningful no-action alternative analysis. The no-action
26 alternative analysis must include the projected beneficial and adverse environmental, social, and economic
27 impact of the project's noncompletion.
28 (D) any regulatory impacts on private property rights, including whether alternatives that reduce,

minimize, or eliminate the regulation of private property rights have been analyzed. The analysis in this subsection ~~(1)(b)(iv)(D)(1)(a)(iv)(D)~~ need not be prepared if the proposed action does not involve the regulation of private property.

~~(E) — the relationship between local short-term uses of the Montana human environment and the maintenance and enhancement of long-term productivity;~~

~~(F)(E)~~ any irreversible and irretrievable commitments of resources that would be involved in the proposed action if it is implemented;

~~(G)(F)~~ the customer fiscal impact analysis, if required by 69-2-216; and

~~(H)(G)~~ the details of the beneficial aspects of the proposed project, both short-term and long-term, and the economic advantages and disadvantages of the proposal;

(v) in accordance with the criteria set forth in subsection ~~(1)(b)(iv)(C)(1)(a)(iv)(C)~~, study, develop, and describe appropriate alternatives to recommend courses of action in any proposal that involves unresolved conflicts concerning alternative uses of available resources. If the alternatives analysis is conducted for a project that is not a state-sponsored project and alternatives are recommended, the project sponsor may volunteer to implement the alternative. ~~Neither the~~The alternatives analysis ~~nor or~~ the resulting recommendations may not bind the project sponsor to take a recommended course of action, ~~but the project sponsor may agree pursuant to subsection (4)(b) to a specific course of action.~~

~~(vi) — recognize the potential long-range character of environmental impacts in Montana and, when consistent with the policies of the state, lend appropriate support to initiatives, resolutions, and programs designed to maximize cooperation in anticipating and preventing a decline in the quality of Montana's environment;~~

~~(vii)(vi)~~ make available to counties, municipalities, institutions, and individuals advice and information useful in restoring, maintaining, and enhancing the quality of Montana's environment;

~~(viii)(vii)~~ initiate and use ecological information in the planning and development of resource-oriented projects; and

~~(ix)(viii)~~ assist the legislature and the environmental quality council established by 5-16-101;

~~(e)(b)~~ prior to making any detailed statement as provided in subsection ~~(1)(b)(iv)(1)(a)(iv)~~, the responsible state official shall consult with and obtain request the comments of any state agency that has

jurisdiction by law or special expertise with respect to any environmental impact involved in Montana and with any Montana local government, as defined in 7-12-1103, that may be directly impacted by the project. The responsible state official shall also consult with and ~~obtain request~~ comments from any state agency in Montana with respect to any regulation of private property involved. Copies of the statement and the comments ~~and views~~ of the appropriate state, federal, and local agencies that are authorized to develop and enforce environmental standards must be made available to the governor, the environmental quality council, and the public and must accompany the proposal through the existing agency review processes.

~~(d)(c)~~ a transfer of an ownership interest in a lease, permit, license, certificate, or other entitlement for use or permission to act by an agency, either singly or in combination with other state agencies, does not trigger review under subsection ~~(1)(b)(iv)(1)(a)(iv)~~ if there is not a material change in terms or conditions of the entitlement or unless otherwise provided by law.

(2) (a) ~~Except as provided in subsection (2)(b), an An~~ environmental review conducted pursuant to subsection (1) may ~~not include an evaluation of greenhouse gas emissions and corresponding impacts to the climate in the state or beyond the state's borders~~ a greenhouse gas assessment subject to [section 1 of Senate Bill No. 221]. The department of environmental quality shall develop a guidance document for use by state agencies to determine when a greenhouse gas assessment may be necessary. The guidance must include direction on methodologies for completing a greenhouse gas assessment. Prior to finalizing this guidance, the department shall provide public notice of the draft guidance and allow for public comment.

(b) An environmental review conducted pursuant to subsection (1) may include an evaluation of the reasonably foreseeable environmental impacts of a proposed action if:

~~(i)~~ — conducted jointly by a state agency and a federal agency to the extent the review of the expanded assessment is required by the federal agency; ~~or~~

~~(ii)~~ — ~~the United States congress amends the federal Clean Air Act to include carbon dioxide emissions as a regulated pollutant.~~

(3) The department of public service regulation, in the exercise of its regulatory authority over rates and charges of railroads, motor carriers, and public utilities, is exempt from the provisions of parts 1 through 3.

~~(4) — (a) The agency may not withhold, deny, or impose conditions on any permit or other authority to act based on parts 1 through 3 of this chapter.~~

~~(b) — Nothing in this subsection (4) prevents a project sponsor and an agency from mutually developing measures that may, at the request of a project sponsor, be incorporated into a permit or other authority to act.~~

~~(c) — Parts 1 through 3 of this chapter do not confer authority to an agency that is a project sponsor to modify a proposed project or action.~~

~~(5)(4)~~ (a) (i) A challenge to an agency's environmental review under this part may only be brought against a final agency action state action approved in a final decision document and may only be brought in district court or in federal court, whichever is appropriate. A challenge may only be brought by a person who submits formal comments on the agency's environmental review prior to the issuance of the agency's final decision document, and the challenge must be limited to those issues ~~addressed-raised~~ in those comments.

(ii) Any action or proceeding challenging a final agency action state action approved in a final decision document alleging failure to comply with or inadequate compliance with a requirement under this part must be brought within 60 days of the action that is the subject of the challenge.

(iii) For an action taken by the board of land commissioners or the department of natural resources and conservation under Title 77, "final agency action" means the date that the board of land commissioners or the department of natural resources and conservation issues a final environmental review document under this part or the date that the board approves the action that is subject to this part, whichever is later.

(b) Any action or proceeding under subsection ~~(5)(a)(ii)(4)(a)(ii)~~ must take precedence over other cases or matters in the district court unless otherwise provided by law.

(c) Any judicial action or proceeding brought in district court under subsection ~~(5)(a)(4)(a)~~ involving an equine slaughter or processing facility must comply with 81-9-240 and 81-9-241.

~~(6)(5)~~ (a) (i) In an action alleging noncompliance or inadequate compliance with a requirement of parts 1 through 3, including a challenge to an agency's decision that an environmental review is not required or a claim that the environmental review is inadequate, the agency shall compile and submit to the court the certified record of its decision at issue. The agency, prior to submitting the certified record to the court, shall assess and collect from the person challenging the decision a fee to pay for actual costs to compile and submit the certified record. Except as provided in subsection ~~(6)(b)(5)(b)~~, the person challenging the decision has the burden of proving the claim by clear and convincing evidence contained in the record.

~~(ii) — An action alleging noncompliance or inadequate compliance with a requirement of parts 1 through 3, including a challenge to an agency's decision that an environmental review is not required or a claim that the environmental review is inadequate based in whole or in part upon greenhouse gas emissions and impacts to the climate in Montana or beyond Montana's borders, cannot vacate, void, or delay a lease, permit, license, certificate, authorization, or other entitlement or authority unless the review is required by a federal agency or the United States congress amends the federal Clean Air Act to include carbon dioxide as a regulated pollutant.~~

~~(iii)(ii)~~ Except as provided in subsection ~~(6)(b)~~ (5)(b), in a challenge to the agency's decision or the adequacy of an environmental review, a court may not consider any information, including but not limited to an issue, comment, argument, proposed alternative, analysis, or evidence, that was not first presented to the agency for the agency's consideration prior to the agency's decision or within the time allowed for comments to be submitted.

~~(iv)(iii)~~ Except as provided in subsection ~~(6)(b)~~ (5)(b), the court shall confine its review to the record certified by the agency. The court shall affirm the agency's decision or the environmental review unless the court specifically finds that the agency's decision was arbitrary and capricious.

~~(v)(iv)~~ A customer fiscal impact analysis pursuant to 69-2-216 or an allegation that the customer fiscal impact analysis is inadequate may not be used as the basis of an action challenging or seeking review of the agency's decision.

(b) (i) When a party challenging the decision or the adequacy of the environmental review or decision presents information not in the record certified by the agency, the challenging party shall certify under oath in an affidavit that the information is new, material, and significant evidence that was not publicly available before the agency's decision and that is relevant to the decision or the adequacy of the agency's environmental review.

(ii) If ~~upon-on~~ reviewing the affidavit the court finds that the proffered information is new, material, and significant evidence that was not publicly available before the agency's decision and that is relevant to the decision or to the adequacy of the agency's environmental review, the court shall remand the new evidence to the agency for the agency's consideration and an opportunity to modify its decision or environmental review before the court considers the evidence as a part of the administrative record under review.

(iii) If the court finds that the information in the affidavit does not meet the requirements of subsection ~~(6)(b)(i)(5)(b)(i)~~, the court may not remand the matter to the agency or consider the proffered information in making its decision.

(c) (i) The remedies provided in this section for successful challenges to a decision of the agency or the adequacy of the statement are exclusive.

(ii) If the court finds that noncompliance has occurred with parts 1 through 3 of this chapter, the court may remand the matter to the agency to correct the noncompliance.

~~(ii)(iii)~~ Notwithstanding the provisions of 27-19-201 and 27-19-314, a court having considered the pleadings of parties and intervenors opposing a request for a temporary restraining order, preliminary injunction, permanent injunction, vacatur, or other equitable relief may not enjoin, void, nullify, revoke, modify, or suspend the issuance or effectiveness of a license or permit or a part of a license or permit issued pursuant to Title 75 or Title 82 unless the court specifically finds that the party requesting the relief is more likely than not to prevail on the merits of its complaint given the uncontroverted facts in the record and applicable law and, in the absence of a temporary restraining order, a preliminary injunction, a permanent injunction, vacatur, or other equitable relief, that the:

(A) party requesting the relief will suffer irreparable harm in the absence of the relief;

(B) issuance of the relief is in the public interest. In determining whether the grant of the relief is in the public interest, a court:

(I) may not consider the legal nature or character of any party; and

(II) shall consider the implications of the relief on the local and state economy and make written findings with respect to both.

(C) relief is as narrowly tailored as the facts allow to address both the alleged noncompliance and the irreparable harm the party asking for the relief will suffer. In tailoring the relief, the court shall ensure, to the extent possible, that the project or as much of the project as possible can go forward while also providing the relief to which the applicant has been determined to be entitled.

(d) The court may issue a temporary restraining order, preliminary injunction, permanent injunction, or other injunctive relief only if the party seeking the relief provides a written undertaking to the court in an amount reasonably calculated by the court as adequate to pay the costs and damages sustained by any

party that may be found to have been wrongfully enjoined or restrained by a court through a subsequent judicial decision in the case, including but not limited to lost wages of employees and lost project revenues for 1 year. If the party seeking an injunction or a temporary restraining order objects to the amount of the written undertaking for any reason, including but not limited to its asserted inability to pay, that party shall file an affidavit with the court that states the party's income, assets, and liabilities in order to facilitate the court's consideration of the amount of the written undertaking that is required. The affidavit must be served on the party enjoined. ~~If a challenge for noncompliance or inadequate compliance with a requirement of parts 1 through 3 seeks to vacate, void, or delay a lease, permit, license, certificate, or other entitlement or authority, the party shall, as an initial matter, seek an injunction related to a lease, permit, license, certificate, or other entitlement or authority,~~ and an An injunction may only be issued if the challenger:

- (i) proves there is a likelihood of succeeding on the merits;
 - (ii) proves there is a violation of an established law or regulation on which the lease, permit, license, certificate, or other entitlement or authority is based; and
 - (iii) subject to the demonstration of the inability to pay, posts the appropriate written undertaking.
- (e) An individual or entity seeking a lease, permit, license, certificate, or other entitlement or authority to act may intervene in a lawsuit in court challenging a decision or statement by a department or agency of the state as a matter of right if the individual or entity has not been named as a defendant.
- (f) Attorney fees or costs may not be awarded to the prevailing party in an action alleging noncompliance or inadequate compliance with a requirement of parts 1 through 3.

~~(7)(6)~~ For the purposes of judicial review, to the extent that the requirements of this section are inconsistent with the provisions of the National Environmental Policy Act, the requirements of this section apply to an environmental review or any severable portion of an environmental review within the state's jurisdiction that is being prepared by a state agency pursuant to this part in conjunction with a federal agency proceeding pursuant to the National Environmental Policy Act.

~~(8)(7)~~ The director of the agency responsible for the determination or recommendation shall endorse in writing any determination of significance made under subsection ~~(1)(b)(iv)(1)(a)(iv)~~ or any recommendation that a determination of significance be made.

~~(9)(8)~~ A project sponsor may request a review of the significance determination or recommendation

1 made under subsection ~~(8)~~(7) by the appropriate board, if any. The appropriate board may, at its discretion,
2 submit an advisory recommendation to the agency regarding the issue. The period of time between the request
3 for a review and completion of a review under this subsection may not be included for the purposes of
4 determining compliance with the time limits established for environmental review in 75-1-208."

5
6 NEW SECTION. **Section 9. Applicability.** [This act] applies to all decisions pending but not decided
7 by a court and cases filed on or after [the effective date of this act].

8 - END -
