7 imposed is incarceration, a fine, or both, the contempt is civil if the contemnor can end the incarceration or
8 avoid the fine by complying with a court order and is criminal if the contemnor cannot end the incarceration or
9 avoid the fine by complying with a court order. If the court's purpose in imposing the sanction is to attempt to

11 impose a sanction under 45-7-309.

"53-21-126. (Temporary) Trial or hearing on petition. (1) The respondent must be present unless the respondent's presence has been waived as provided in 53-21-119(2), and the respondent must be represented by counsel at all stages of the trial. The trial must be limited to the determination of whether or not the respondent is suffering from a mental disorder and requires commitment. At the trial, the court shall consider all the facts relevant to the issues of whether the respondent is suffering from a mental disorder. If the court determines that the respondent is suffering from a mental disorder, the court shall then determine whether the respondent requires commitment. In determining whether the respondent requires commitment and the

appropriate disposition under 53-21-127, the court shall consider the following:

(a) whether the respondent, because of a mental disorder, is substantially unable to provide for the respondent's own basic needs of food, clothing, shelter, health, or safety;

(b) whether the respondent has recently, because of a mental disorder and through an act or an omission, caused self-injury or injury to others;

(c) whether, because of a mental disorder, there is an imminent threat of injury to the respondent or to others because of the respondent's acts or omissions; and

(d) whether the respondent's mental disorder, as demonstrated by the respondent's recent acts or omissions, will, if untreated, predictably result in deterioration of the respondent's mental condition to the point at which the respondent will become a danger to self or to others or will be unable to provide for the respondent's own basic needs of food, clothing, shelter, health, or safety. Predictability may be established by the respondent's relevant medical history.

(2) The standard of proof in a hearing held pursuant to this section is proof beyond a reasonable doubt with respect to any physical facts or evidence and clear and convincing evidence as to all other matters. However, the respondent's mental disorder must be proved to a reasonable medical certainty. Imminent threat of self-inflicted injury or injury to others must be proved by overt acts or omissions, sufficiently recent in time as to be material and relevant as to the respondent's present condition.

(3) The professional person appointed by the court must be present for the trial and subject to cross-examination. The professional person's presence may be accomplished by the use of two-way electronic audio-video communication. The trial is governed by the Montana Rules of Civil Procedure. However, if the issues are tried by a jury, at least two-thirds of the jurors shall concur on a finding that the respondent is suffering from a mental disorder and requires commitment. The written report of the professional person that indicates the professional person's diagnosis may be attached to the petition, but any matter otherwise inadmissible, such as hearsay matter, is not admissible merely because it is contained in the report. The court may order the trial closed to the public for the protection of the respondent.

(4) The professional person may testify as to the ultimate issue of whether the respondent is suffering from a mental disorder and requires commitment. This testimony is insufficient unless accompanied by evidence from the professional person or others that:

(a) the respondent, because of a mental disorder, is substantially unable to provide for the respondent's own basic needs of food, clothing, shelter, health, or safety;

(b) the respondent has recently, because of a mental disorder and through an act or an omission, caused self-injury or injury to others;

(c) because of a mental disorder, there is an imminent ~~threat~~danger of injury to the respondent or to others because of the respondent's acts or omissions; ~~or~~

(d) (i) the respondent's mental disorder:

(A) has resulted in recent acts, omissions, or behaviors that create difficulty in protecting the respondent's life or health;

(B) is treatable, with a reasonable prospect of success;

(C) has resulted in the respondent's refusing or being unable to consent to voluntary admission for treatment; and

(ii) will, if untreated, predictably result in deterioration of the respondent's mental condition to the point at which the respondent will become a danger to self or to others or will be unable to provide for the respondent's own basic needs of food, clothing, shelter, health, or safety. Predictability may be established by the respondent's relevant medical history; or

(e) whether an emergency situation as defined in 53-21-102 exists.

(5) The court, upon the showing of good cause and when it is in the best interests of the respondent, may order a change of venue.

(6) An individual with a primary diagnosis of a mental disorder who also has a co-occurring diagnosis of chemical dependency may satisfy criteria for commitment under this part.

53-21-126. (Effective July 1, 2025) Trial or hearing on petition. (1) The respondent must be present unless the respondent's presence has been waived as provided in 53-21-119(2), and the respondent must be represented by counsel at all stages of the trial. The trial must be limited to the determination of whether or not the respondent is suffering from a mental disorder and requires commitment. At the trial, the court shall consider all the facts relevant to the issues of whether the respondent is suffering from a mental disorder. If the court determines that the respondent is suffering from a mental disorder, the court shall then

determine whether the respondent requires commitment. In determining whether the respondent requires commitment and the appropriate disposition under 53-21-127, the court shall consider the following:

(a) whether the respondent, because of a mental disorder, is substantially unable to provide for the respondent's own basic needs of food, clothing, shelter, health, or safety;

(b) whether the respondent has recently, because of a mental disorder and through an act or an omission, caused self-injury or injury to others;

(c) whether, because of a mental disorder, there is an imminent ~~threat~~danger of injury to the respondent or to others because of the respondent's acts or omissions; ~~and~~

(d) (i) whether the respondent's mental disorder, as demonstrated by the respondent's recent acts or omissions, will, if untreated, predictably result in deterioration of the respondent's mental condition to the point at which the respondent will:

(A) become a danger to self or to others; or

(B) be unable to provide for the respondent's own basic needs of food, clothing, shelter, health, or safety.

(ii) Predictability may be established by the respondent's relevant medical history; and

(e) whether an emergency situation as defined in 53-21-102 exists.

(2) The standard of proof in a hearing held pursuant to this section is proof beyond a reasonable doubt with respect to any physical facts or evidence and clear and convincing evidence as to all other matters. However, the respondent's mental disorder must be proved to a reasonable medical certainty. Imminent threat of self-inflicted injury or injury to others must be proved by overt acts or omissions, sufficiently recent in time as to be material and relevant as to the respondent's present condition.

(3) The professional person appointed by the court must be present for the trial and subject to cross-examination. The professional person's presence may be accomplished by the use of two-way electronic audio-video communication. The trial is governed by the Montana Rules of Civil Procedure. However, if the issues are tried by a jury, at least two-thirds of the jurors shall concur on a finding that the respondent is suffering from a mental disorder and requires commitment. The written report of the professional person that indicates the professional person's diagnosis may be attached to the petition, but any matter otherwise inadmissible, such as hearsay matter, is not admissible merely because it is contained in the report. The court

1 may order the trial closed to the public for the protection of the respondent.

2 (4) The professional person may testify as to the ultimate issue of whether the respondent is
3 suffering from a mental disorder and requires commitment. This testimony is insufficient unless accompanied
4 by evidence from the professional person or others that:

5 (a) the respondent, because of a mental disorder, is substantially unable to provide for the
6 respondent's own basic needs of food, clothing, shelter, health, or safety;

7 (b) the respondent has recently, because of a mental disorder and through an act or an omission,
8 caused self-injury or injury to others;

9 (c) because of a mental disorder, there is an imminent ~~threat~~danger of injury to the respondent or
10 to others because of the respondent's acts or omissions; ~~or~~

11 (d) (i) the respondent's mental disorder:

12 (A) has resulted in recent acts, omissions, or behaviors that create difficulty in protecting the
13 respondent's life or health;

14 (B) is treatable, with a reasonable prospect of success;

15 (C) has resulted in the respondent's refusing or being unable to consent to voluntary admission for
16 treatment; and

17 (ii) will, if untreated, predictably result in deterioration of the respondent's mental condition to the
18 point at which the respondent will become a danger to self or to others or will be unable to provide for the
19 respondent's own basic needs of food, clothing, shelter, health, or safety. Predictability may be established by
20 the respondent's relevant medical history; or

21
22 (e) whether an emergency situation as defined in 53-21-102 exists.

23 (5) The court, upon the showing of good cause and when it is in the best interests of the
24 respondent, may order a change of venue.

25 (6) An individual with a primary diagnosis of a mental disorder who also has a co-occurring
26 diagnosis of chemical dependency may satisfy criteria for commitment under this part.

27 (7) An individual with a primary diagnosis of Alzheimer's disease, other forms of dementia, or
28 traumatic brain injury may be committed under this part only if the person meets the criteria outlined in

1 subsection (1)(b), (1)(c), or (1)(d)(i)(A)."

3 **Section 6.** Section 53-21-127, MCA, is amended to read:

4 **"53-21-127. (Temporary) Posttrial disposition.** (1) If, upon trial, it is determined that the respondent
5 is not suffering from a mental disorder or does not require commitment within the meaning of this part, the
6 respondent must be discharged and the petition dismissed.

7 (2) If it is determined that the respondent is suffering from a mental disorder and requires
8 commitment within the meaning of this part, the court shall hold a posttrial disposition hearing. The disposition
9 hearing must be held within 5 days (including Saturdays, Sundays, and holidays unless the fifth day falls on a
10 Saturday, Sunday, or holiday), during which time the court may order further evaluation and treatment of the
11 respondent.

12 (3) (a) At the conclusion of the disposition hearing and pursuant to the provisions in subsection (7),
13 the court shall:

14 (a)(i) subject to the provisions of 53-21-193, commit the respondent to the state hospital or to a
15 behavioral health inpatient facility for a period of not more than 3 months;

16 (b)(ii) commit the respondent to a community facility, which may include a category D assisted living
17 facility, or a community program or to any appropriate course of treatment, which may include housing or
18 residential requirements or conditions as provided in 53-21-149, for a period of:

19 (i)(A) not more than 3 months; or

20 (ii)(B) not more than 6 months in order to provide the respondent with a less restrictive commitment in
21 the community rather than a more restrictive placement in the state hospital if a respondent has been
22 previously involuntarily committed for inpatient treatment in a mental health facility and the court determines
23 that the admission of evidence of the previous involuntary commitment is relevant to the criterion of
24 predictability, as provided in 53-21-126(1)(d), and outweighs the prejudicial effect of its admission, as provided
25 in 53-21-190; or

26 (e)(ii) commit the respondent to the Montana mental health nursing care center for a period of not
27 more than 3 months if the following conditions are met:

28 (i)(A) the respondent meets the admission criteria of the center as described in 53-21-411 and

1 established in administrative rules of the department; and

2 (ii)(B) the superintendent of the center has issued a written authorization specifying a date and time
3 for admission.

4 (b) The court may not commit the respondent to a private mental health facility or hospital without
5 the express consent of the facility or hospital.

6 (4) Except as provided in subsection ~~(3)(b)(ii)~~ (3)(a)(ii)(A), a treatment ordered pursuant to this
7 section may not affect the respondent's custody or course of treatment for a period of more than 3 months.

8 (5) In determining which of the alternatives in subsection (3) to order, the court shall choose the
9 least restrictive alternatives necessary to protect the respondent and the public and to permit effective
10 treatment.

11 (6) The court may authorize the chief medical officer of a facility or a physician designated by the
12 court to administer appropriate medication involuntarily if the court finds that involuntary medication is
13 necessary to protect the respondent or the public or to facilitate effective treatment. Medication may not be
14 involuntarily administered to a patient unless the chief medical officer of the facility or a physician designated by
15 the court approves it prior to the beginning of the involuntary administration and unless, if possible, a
16 medication review committee reviews it prior to the beginning of the involuntary administration or, if prior review
17 is not possible, within 5 working days after the beginning of the involuntary administration. The medication
18 review committee must include at least one person who is not an employee of the facility or program. The
19 patient and the patient's attorney or advocate, if the patient has one, must receive adequate written notice of
20 the date, time, and place of the review and must be allowed to appear and give testimony and evidence. The
21 involuntary administration of medication must be again reviewed by the committee 14 days and 90 days after
22 the beginning of the involuntary administration if medication is still being involuntarily administered. The mental
23 disabilities board of visitors and the director of the department of public health and human services must be
24 fully informed of the matter within 5 working days after the beginning of the involuntary administration. The
25 director shall report to the governor on an annual basis.

26 (7) Satisfaction of any one of the criteria listed in 53-21-126(1) justifies commitment pursuant to
27 this chapter. However, if the court relies solely ~~upon~~ on any of the criterion criteria provided in 53-21-126(1)(d),
28 the court may require commitment only to a community facility, which may include a category D assisted living

1 facility, or a program or an appropriate course of treatment, as provided in subsection ~~(3)(b)~~ (3)(a)(ii), and may
2 not require commitment at the state hospital, a behavioral health inpatient facility, or the Montana mental health
3 nursing care center.

4 (8) In ordering commitment pursuant to this section, the court shall attest that the court has not
5 relied solely on the criteria provided in 53-21-126(1)(d) and shall make the following findings of fact:

6 (a) a detailed statement of the facts upon which the court found the respondent to be suffering
7 from a mental disorder and requiring commitment;

8 (b) the alternatives for treatment that were considered;

9 (c) the alternatives available for treatment of the respondent;

10 (d) the reason that any treatment alternatives were determined to be unsuitable for the
11 respondent;

12 (e) the name of the facility, program, or individual to be responsible for the management and
13 supervision of the respondent's treatment;

14 (f) if the order includes a requirement for inpatient treatment, the reason inpatient treatment was
15 chosen from among other alternatives;

16 (g) if the order commits the respondent to the Montana mental health nursing care center, a finding
17 that the respondent meets the admission criteria of the center and that the superintendent of the center has
18 issued a written authorization specifying a date and time for admission;

19 (h) if the order provides for an evaluation to determine eligibility for entering a category D assisted
20 living facility, a finding that indicates whether:

21 (i) the respondent meets the admission criteria;

22 (ii) there is availability in a category D assisted living facility; and

23 (iii) a category D assisted living facility is the least restrictive environment because the respondent
24 is unlikely to benefit from involuntary commitment to facilities with more intensive treatment; and

25 (i) if the order includes involuntary medication, the reason involuntary medication was chosen
26 from among other alternatives.

27 (9) Any mental health evaluation report of a professional person who evaluated the respondent or
28 patient in connection with the commitment must be filed under seal at the time of the filing of the court's order

1 but must be made available to the mental health facility to which the respondent or patient is committed.

2 (10) A court may not order the transfer or transport of a respondent or patient to the Montana state
3 hospital until the hospital has confirmed in writing that:

4 (a) a bed is available for the respondent or patient;

5 (b) admission of the respondent or patient will not cause the census at the hospital to exceed its
6 licensed bed capacity; and

7 (c) the information and records requested by the hospital are received, including:

8 (i) physical and psychiatric health information sufficient to:

9 (A) evaluate the immediate treatment needs and appropriate placement of the respondent or
10 patient, including the availability of less restrictive medically appropriate facilities; and

11 (B) coordinate care with the professional person, county attorney, court, or the person or entity
12 transporting the respondent during the admission process;

13 (ii) documentation of legal authority to admit the respondent or patient; and

14 (iii) other information and records as required by administrative rule.

15 (11) A respondent or patient may not be transported to the Montana state hospital until the
16 requirements of subsection (10) are fulfilled.

17 (12) The Montana state hospital may refuse to admit into its custody a respondent or patient who
18 has been ordered to be transferred or transported to the hospital until:

19 (a) a bed is available for the respondent or patient;

20 (b) admission of the respondent or patient will not cause the census at the hospital to exceed its
21 licensed bed capacity;

22 (c) admission will not cause the hospital to violate any law, rule, or certification or licensing
23 provision; and

24 (d) the information and records requested by the hospital under subsection (10)(c) are received by
25 the hospital.

26 **53-21-127. (Effective July 1, 2025) Posttrial disposition.** (1) A respondent must be discharged and
27 the petition dismissed if, upon trial, it is determined that the respondent:

28 (a) is not suffering from a mental disorder;

(b) does not require commitment within the meaning of this part; or

(c) is suffering from a mental disorder but the respondent's primary diagnosis is Alzheimer's disease, other forms of dementia, or traumatic brain injury and the respondent meets only the commitment criteria outlined in 53-21-126(1)(a) or (1)(d)(i)(B).

(2) If it is determined that the respondent is suffering from a mental disorder and requires commitment within the meaning of this part, the court shall hold a posttrial disposition hearing. The disposition hearing must be held within 5 days (including Saturdays, Sundays, and holidays unless the fifth day falls on a Saturday, Sunday, or holiday), during which time the court may order further evaluation and treatment of the respondent.

(3) (a) At the conclusion of the disposition hearing and pursuant to the provisions in subsection (7), the court shall:

~~(a)~~ (i) subject to the provisions of 53-21-193, commit the respondent to the state hospital or to a behavioral health inpatient facility for a period of not more than 3 months;

~~(b)~~ (ii) commit the respondent to a community facility, which may include a category D assisted living facility, or a community program or to any appropriate course of treatment, which may include housing or residential requirements or conditions as provided in 53-21-149, for a period of:

~~(i)~~ (A) not more than 3 months; or

~~(ii)~~ (B) not more than 6 months in order to provide the respondent with a less restrictive commitment in the community rather than a more restrictive placement in the state hospital if a respondent has been previously involuntarily committed for inpatient treatment in a mental health facility and the court determines that the admission of evidence of the previous involuntary commitment is relevant to the criterion of predictability, as provided in 53-21-126(1)(d), and outweighs the prejudicial effect of its admission, as provided in 53-21-190; or

~~(c)~~ (iii) commit the respondent to the Montana mental health nursing care center for a period of not more than 3 months if the following conditions are met:

~~(i)~~ (A) the respondent meets the admission criteria of the center as described in 53-21-411 and established in administrative rules of the department; and

~~(ii)~~ (B) the superintendent of the center has issued a written authorization specifying a date and time

1 for admission.

2 (b) The court may not commit the respondent to a private mental health facility or hospital without
3 the express consent of the facility or hospital.

4 (4) Except as provided in subsection ~~(3)(b)(ii)~~ (3)(a)(ii), a treatment ordered pursuant to this section
5 may not affect the respondent's custody or course of treatment for a period of more than 3 months.

6 (5) In determining which of the alternatives in subsection (3) to order, the court shall choose the
7 least restrictive alternatives necessary to protect the respondent and the public and to permit effective
8 treatment.

9 (6) The court may authorize the chief medical officer of a facility or a physician designated by the
10 court to administer appropriate medication involuntarily if the court finds that involuntary medication is
11 necessary to protect the respondent or the public or to facilitate effective treatment. Medication may not be
12 involuntarily administered to a patient unless the chief medical officer of the facility or a physician designated by
13 the court approves it prior to the beginning of the involuntary administration and unless, if possible, a
14 medication review committee reviews it prior to the beginning of the involuntary administration or, if prior review
15 is not possible, within 5 working days after the beginning of the involuntary administration. The medication
16 review committee must include at least one person who is not an employee of the facility or program. The
17 patient and the patient's attorney or advocate, if the patient has one, must receive adequate written notice of
18 the date, time, and place of the review and must be allowed to appear and give testimony and evidence. The
19 involuntary administration of medication must be again reviewed by the committee 14 days and 90 days after
20 the beginning of the involuntary administration if medication is still being involuntarily administered. The mental
21 disabilities board of visitors and the director of the department of public health and human services must be
22 fully informed of the matter within 5 working days after the beginning of the involuntary administration. The
23 director shall report to the governor on an annual basis.

24 (7) Except as provided in 53-21-126(7), satisfaction of any one of the criteria listed in 53-21-126(1)
25 justifies commitment pursuant to this chapter. However, if the court relies solely on any of the criterion criteria
26 provided in 53-21-126(1)(d), the court may require commitment only to a community facility, which may include
27 a category D assisted living facility, or a program or an appropriate course of treatment, as provided in
28 subsection ~~(3)(b)~~ (3)(a)(ii), and may not require commitment at the state hospital, a behavioral health inpatient

1 facility, or the Montana mental health nursing care center.

2 (8) In ordering commitment pursuant to this section, the court shall attest that the court has not
3 relied solely on the criteria provided in 53-21-126(1)(d) and shall make the following findings of fact:

4 (a) a detailed statement of the facts upon which the court found the respondent to be suffering
5 from a mental disorder and requiring commitment;

6 (b) the alternatives for treatment that were considered;

7 (c) the alternatives available for treatment of the respondent;

8 (d) the reason that any treatment alternatives were determined to be unsuitable for the
9 respondent;

10 (e) the name of the facility, program, or individual to be responsible for the management and
11 supervision of the respondent's treatment;

12 (f) if the order includes a requirement for inpatient treatment, the reason inpatient treatment was
13 chosen from among other alternatives;

14 (g) if the order commits the respondent to the Montana mental health nursing care center, a finding
15 that the respondent meets the admission criteria of the center and that the superintendent of the center has
16 issued a written authorization specifying a date and time for admission;

17 (h) if the order provides for an evaluation to determine eligibility for entering a category D assisted
18 living facility, a finding that indicates whether:

19 (i) the respondent meets the admission criteria;

20 (ii) there is availability in a category D assisted living facility; and

21 (iii) a category D assisted living facility is the least restrictive environment because the respondent
22 is unlikely to benefit from involuntary commitment to facilities with more intensive treatment; and

23 (i) if the order includes involuntary medication, the reason involuntary medication was chosen
24 from among other alternatives.

25 (9) Any mental health evaluation report of a professional person who evaluated the respondent or
26 patient in connection with the commitment must be filed under seal at the time of the filing of the court's order
27 but must be made available to the mental health facility to which the respondent or patient is committed.
28

(10) A court may not order the transfer or transport of a respondent or patient to the Montana state hospital until the hospital has confirmed in writing that:

(a) a bed is available for the respondent or patient ;

(b) admission of the respondent or patient will not cause the census at the hospital to exceed its licensed bed capacity; and

(c) the information and records requested by the hospital are received, including:

(i) physical and psychiatric health information sufficient to:

(A) evaluate the immediate treatment needs and appropriate placement of the respondent or patient, including the availability of less restrictive medically appropriate facilities; and

(B) coordinate care with the professional person, county attorney, court, or the person or entity transporting the respondent during the admission process ;

(ii) documentation of legal authority to admit the respondent or patient ; and

(iii) other information and records as required by administrative rule.

(11) A respondent or patient may not be transported to the Montana state hospital until the requirements of subsection (10) are fulfilled.

(12) The Montana state hospital may refuse to admit into its custody a respondent or patient who has been ordered to be transferred or transported to the hospital until:

(a) a bed is available for the respondent or patient ;

~~(b) admission of the respondent or patient will not cause the census at the hospital to exceed its licensed bed capacity;~~

~~(c) admission will not cause the hospital to violate any law, rule, or certification or licensing provision; and~~

~~(d) the information and records requested by the hospital under subsection (10)(c) are received by the hospital ."~~
